Safety Precautions

- 1. Read the safety instructions carefully before using the appliance for the first time and retain them for future reference.
- 2. Before plugging in the appliance, check that the electrical rating shown on the rating plate corresponds with your house electricity supply.
- 3. If the power cord is damaged, it must be replaced by the manufacturer or its service agents or qualified electricians in order to avoid a hazard.
- 4. Switch off the appliance before unplugging it from the mains. Do not touch the plug with wet hands to avoid risk of electric shock.
- 5. Do not insert fingers or small objects into the grille during operation to reduce the risk of injury to persons.
- 6. Do not use the appliance on an inclined surface greater than 10°, or in a lay-down position.
- 7. Do not spray insecticide near the air inlet or outlet of the air purifier. Avoid putting the air purifier in area where the air passageway may be blocked.
- 8. The air purifier should not be used in area with high temperature (higher than 40 °C) and high humidity, say bathroom. Also avoid using it in dusty or oily area.
- 9. Do not put the appliance, the power cord or the plug into water or any other liquid.
- 10. The appliance is designed for household use only. Use the appliance with its intended use.
- 11. Unplug the appliance before storing, assembling and cleaning the components of the appliance.
- 12. This appliance is not intended for use by persons (including children) with reduced physical sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- 13. Children should be supervised to ensure that they do not play with the appliance.
- 14. Do not immerse in water for cleaning.

Using your Clean Tower

Fan (Air Purifier)

- 1. Before using the air purifier, check that the filters are installed in the following order:
- i. Activated Carbon Filter \rightarrow ii. HEPA Filter \rightarrow iii. Metal Mesh Filter \rightarrow iv. Air Inlet 2. Buttons

| | 8 4 2 O | 102 II. U | | |
|------------------------------------|--|--|--|--|
| Timer Indicator Timer Speed On/Off | | | | |
| U | ON/OFF Button: Press once to turn the air purifier ON. The default speed is Speed I. Press again to turn it OFF. | | | |
| | Speed Button: | Press the Speed Button to advance the speed by one setting. When the air purifier is at Speed III, pressing the Speed Button will return the speed setting to Speed I. It follows the cycle like this $\rightarrow I \rightarrow II \rightarrow II \rightarrow II$ | | |
| OI | Timer Button: | Press the Timer Button to select the pre-set time, in mode of 0H, 1H, 2H, 4H, 8H. It follows the cycle like this $\rightarrow 0H \rightarrow 1H \rightarrow 2H \rightarrow 4H \rightarrow 8H \rightarrow 1H \rightarrow 1H \rightarrow 2H \rightarrow 4H \rightarrow 8H \rightarrow 1H \rightarrow 1H \rightarrow 2H \rightarrow 4H \rightarrow 8H \rightarrow 1H \rightarrow 1H \rightarrow 2H \rightarrow 4H \rightarrow 8H \rightarrow 1H \rightarrow 1H \rightarrow 2H \rightarrow 4H \rightarrow 8H \rightarrow 1H \rightarrow 1H \rightarrow 2H \rightarrow 4H \rightarrow 8H \rightarrow 1H \rightarrow 1H \rightarrow 1H \rightarrow 1H \rightarrow 1H \rightarrow 1H \rightarrow 1$ | | |

3. Function of air purifier

Four layers of filter can clean the air with their respective function:

- a. Air Intake Grille can block the large particles from getting into the air purifier directly
- b. Metal mesh filter filters out the dusts and air pollutants
- c. Activated carbon filter removes contaminants, impurities and VOCs from the air.

Hand-held Vaccum Cleaner

1. Charging / Stand-by Mode

- a. The charging cavity is located at the top part of the product. Place it on a flat horizontal surface when charging.
- b. Do not charge the vacuum cleaner with other chargers.
- c. For the first use, charge the vacuum cleaner continuously for 4 hours.
- d. Switch off the vacuum cleaner during charging.
- e. When the vacuum cleaner is placed in the charging cavity, the charging indication LED will light up (red charging / blue charging completed).
- 2. When the vacuum cleaner is charged, take out the vacuum cleaner and push the ON/OFF Button at the back side of the handle, your vacuum cleaning is ready to use.
- 3. Follow the procedures shown below for dust disposal

4. The Dust Filter is not disposable type and it can be used repeatedly.

Care and Maintenance

- 1. Turn off and unplug air purifier before cleaning or replacing filters.
- 2. Gently push the release tabs on the Air Intake Grille and pull backward to remove it.
- 3. Remove the filters and put them aside.
- 4. Clean the air purifier & vacuum cleaner with a soft, damp cloth.
- 5. Use mild soapy water to clean the product, do not use bleach or other abrasive detergents.
- 6. Put the product in cool & well ventilated area until it is thoroughly dry.
- 7. Reassemble the filters in order as mentioned in previous session.
- 8. The product is now ready to use or for storage.

Troubleshooting

| Problem Probable Cause Correction | | | |
|-----------------------------------|--------------------------------|-------------------------------|--|
| 1 Toblem | The power cord is not yet | Plug in the power cord to the | |
| Air purifier door not rup | plugged into the socket, or it | socket securely again. | |
